Sexual objectification is the act of treating a person solely as an object of sexual desire. Objectification more broadly means treating a person as a commodity or an object without regard to their personality or dignity. Objectification is most commonly examined at the level of a society, but can also refer to the behavior of individuals and is a type of dehumanization.

Sexual objectification - Wikipedia

2. Islet Distribution in the Pancreas: Structure, Size, Location. The total number of islets in a human pancreas has been estimated to be between 3.2 and 14.8 million, with a total islet volume of 0.5 to 2.0 cm³ [9,10,11,12,13,14]. The cellular composition and architecture of pancreatic islets differ between and within species [15,16]. The inter-species differences have previously been shown to ...

The Cells of the Islets of Langerhans

Bacteroides may be passed from mother to child during vaginal birth and thus become part of the human flora in the earliest stages of life ().The bacteria maintain a complex and generally beneficial relationship with the host when retained in the gut, and their role as commensals has been extensively reviewed ().A quote in a recent publication captured this attribute:
“...with *B. fragilis* ...
