Bettie Sharp's Novella, Ember is one of the best fairy tale retellings I've read. It keeps all of the original elements of the original Cinderella story and gives it a tantalizing magic in exchange for the former springtime grace and lace. This is not a story for little girls, this is an adult story.

A while ago I chanced upon Ember, Bettie Sharpe's dark gritty and explicit take on the Cinderella story. It was (and I think still is) a free ebook, and I was hooked from the first couple of pages. It was excellent all through, I loved the writing, the setting, the voice and tone.
