Set Builder Notation and Roster Method - YouTube

Purplemath. You never know when set notation is going to pop up. Usually, you'll see it when you learn about solving inequalities, because for some reason saying " $x < 3$ " isn't good enough, so instead they'll want you to phrase the answer as "the solution set is $\{x | x \text{ is a real number and } x < 3 \}$ ". How this adds anything to the student's understanding, I don't know.
