### **The Organ Donor Experience Good**

Help spread the word about the importance of signing up as an organ, eye, and tissue donor with these free digital outreach and education materials.

### **Information about Organ, Eye, and Tissue Donation ...**

Organ transplantation is a medical procedure in which an organ is removed from one body and placed in the body of a recipient, to replace a damaged or missing organ. The donor and recipient may be at the same location, or organs may be transported from a donor site to another location. Organs and/or tissues that are transplanted within the same person's body are called autografts.

### **Organ transplantation - Wikipedia**

Organ trade (also known as Red market) is the trading of human organs, tissues, or other body products, usually for transplantation. According to the World Health Organization (WHO), organ trade is a commercial transplantation where there is a profit, or transplantations that occurs outside of national medical systems. There is a global need or demand for healthy body parts for transplantation ...
